Product Designer with 6 years of experience designing complex digital products across fintech, digital banking, wealth management, and enterprise platforms. I lead end-to-end UX workflows, from research and journey mapping through high-fidelity design, delivery, and iteration. Experienced in design systems, usability testing, accessibility, cross-functional collaboration, and GenAI-enabled design-to-code workflows using Claude Code.

Work Experience

Intermediate Product Designer, Fintech & Wealth Management *Aug 2025 — Present*

Product Designer *Nov 2024 — Jul 2025*

Fintex Inc., Toronto, Ontario

- Led end-to-end product design for a wealth management and investing platform across desktop and mobile, from discovery and research through delivery and iteration.
- **Owned complex user journeys spanning onboarding, account opening, investing, transfers, dashboards, and financial planning**, translating complex requirements into intuitive workflows.
- Partnered independently with Product Managers, Engineers, QA, and Business stakeholders to align user needs, technical constraints, and business goals.
- Conducted user research, interviews, usability testing, and design validation to identify friction points and inform iterative product decisions.
- Contributed to internal design system standards and workflow optimization using **Claude Code, shipping design-to-code implementations as production GitHub PRs.**
- Created pixel-perfect, development-ready flows, wireframes, prototypes, and UI in Figma, maintaining consistency **with design-system patterns and accessibility standards.**
- Presented design rationale, trade-offs, and recommendations to cross-functional stakeholders, advocating for user needs throughout delivery.
- **Mentored junior designers** on design problem-solving, quality, and cross-functional collaboration.

Selected Projects

- **Tangerine Digital Wealth Platform (MVP):** Led the launch of a **core investing and planning experience**, driving 22.3% adoption (+12.3 percentage points MoM) and 46.6% mobile engagement with 67.2K active clients. Identified and addressed critical user friction points through research, iterative design, and post-launch analytics: entry-point discovery, external asset completion, and asset projection accuracy. Owned the research-to-design-to-analytics feedback cycle.
- **RBC Wealth Management - Supervision & Compliance Platform:** Designed **enterprise compliance workflows for supervisors to monitor advisor activities**, review regulatory exceptions, and manage investment rules. Simplified complex processes through **dashboards, data tables, and rule-management interfaces** while delivering scalable UX patterns, high-fidelity prototypes, and developer-ready specifications.

UX & UI Designer, Enterprise Data & Digital Products *Mar 2022 — Apr 2023*

EY(Ernst & Young) Mtel Solutions Ltd.

- Led end-to-end UX/UI design for web and mobile **products across banking, real estate, logistics, and utilities**, from early discovery through launch.
- Conducted user interviews, usability testing, and research activities to identify user needs and translate insights into actionable design solutions.
- Designed user journeys, wireframes, interactive prototypes, and high-fidelity interfaces for complex corporate and consumer workflows.
- Created and maintained UI design guidelines and reusable interface patterns to improve consistency across product experiences.
- Facilitated **design-thinking workshops** with major corporate clients to align stakeholders and explore user-centered solutions.
- Collaborated closely with developers and cross-functional teams and presented design solutions directly to clients throughout product delivery.

Selected Projects

- **Kerry Logistics - Emissions Reporting Platform:** Designed a **data collection and reporting platform** supporting 300+ business units, simplifying complex workflows for collecting and managing operational data. Redesigned forms and reporting flows, contributing to **50% less form-management time**, 70% fewer incomplete/inaccurate submissions, 85% user satisfaction, and 80% faster reporting. Designed custom dashboards and reporting interfaces to help users manage and understand complex operational data.
- **Chinachem Group Loyalty Membership App:** Led a successful launch with 46K+ downloads in the inaugural season. Orchestrated user engagement, membership integration, and a seamless transition with in-app points conversion for improved user experience and retention.

UX Designer, E-commerce & Service Experiences *Aug 2020 — Jan 2022*

Parc Antique & Lifestyle Ltd.

- Established UX and visual design standards, reusable UI patterns, and guidelines across retail and wedding service digital experiences.
- Designed responsive websites, interfaces, and interactive components using Figma and Adobe Creative Suite, with a focus on usability and engagement.
- Developed user flows, wireframes, and interactive prototypes for e-commerce and service-booking experiences, accounting for edge cases and responsive states.
- Collaborated with developers to deliver website functionality and content-management features, providing design assets and specifications for accurate implementation.

Product Designer, Digital Products & Websites *Jan 2022 — Present*

Sallee Studio

- Specializes in creating impactful digital products, websites, and visuals tailored to client needs.

- **Heima 1996 Ltd. (Select Store):** Conducted a comprehensive evaluation from scratch, repositioned the brand, and redesigned the website, achieving a 35% increase in traffic and a 25% sales boost. Improved project efficiency and budget evaluations.
- **Health Coach Howard Ltd. (Health Service):** Implemented a streamlined booking system, reducing the steps from 5 to 2. Improved booking actions and scheduling efficiency with engagement strategies.

Skills

Product Design: End-to-end UX, complex workflows, user journeys, wireframing, prototyping, high-fidelity UI, usability testing, research, analytics & measurement

Design Systems: Figma, reusable components & patterns, UI guidelines, accessibility (WCAG 2.1 AA), design QA, developer-ready specifications

GenAI & Technical: Claude Code, ChatGPT, Vercel, design-to-code workflows, GitHub, Storybook, Jira

Domain: Fintech, digital banking, wealth management, enterprise platforms, B2C & B2B

Education

The Hong Kong Polytechnic University

— Bachelor of Interactive Media

— Higher Diploma of Multimedia design and technology

Languages

Multilingual; Fluent in English, Cantonese, Mandarin
